Installation Manual

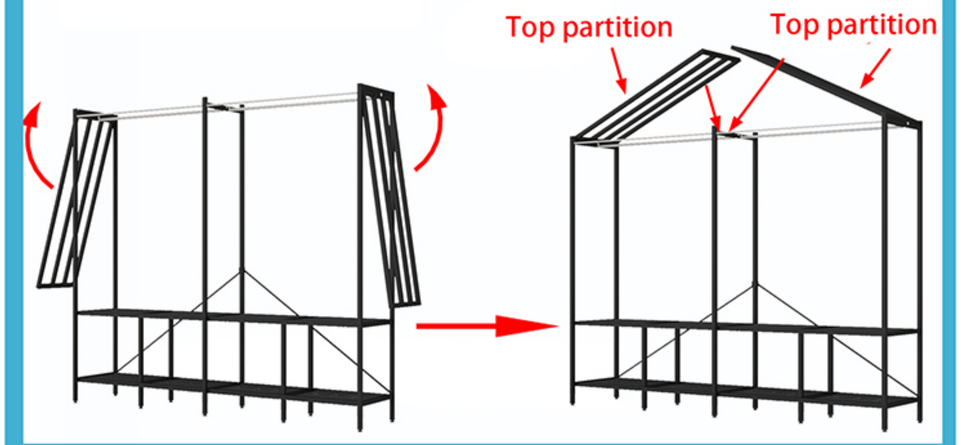

1. Open the package and expand the frame as shown in the picture.

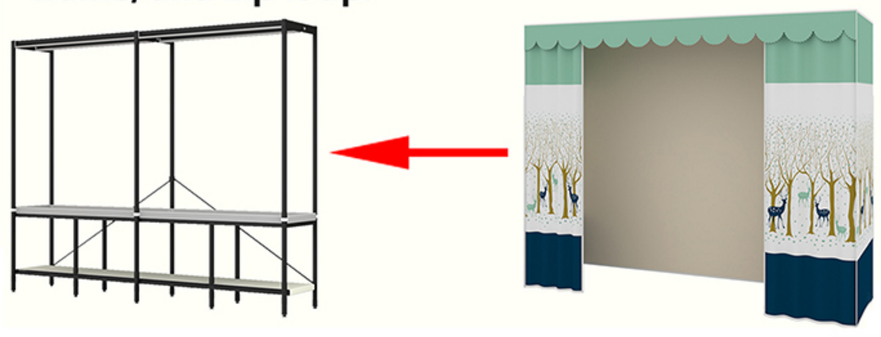

2. Insert the slide rod into the round holes on both sides of the long column, and then install the hanging rod.

3. Stretch the top partition upward and insert it into the middle slot.

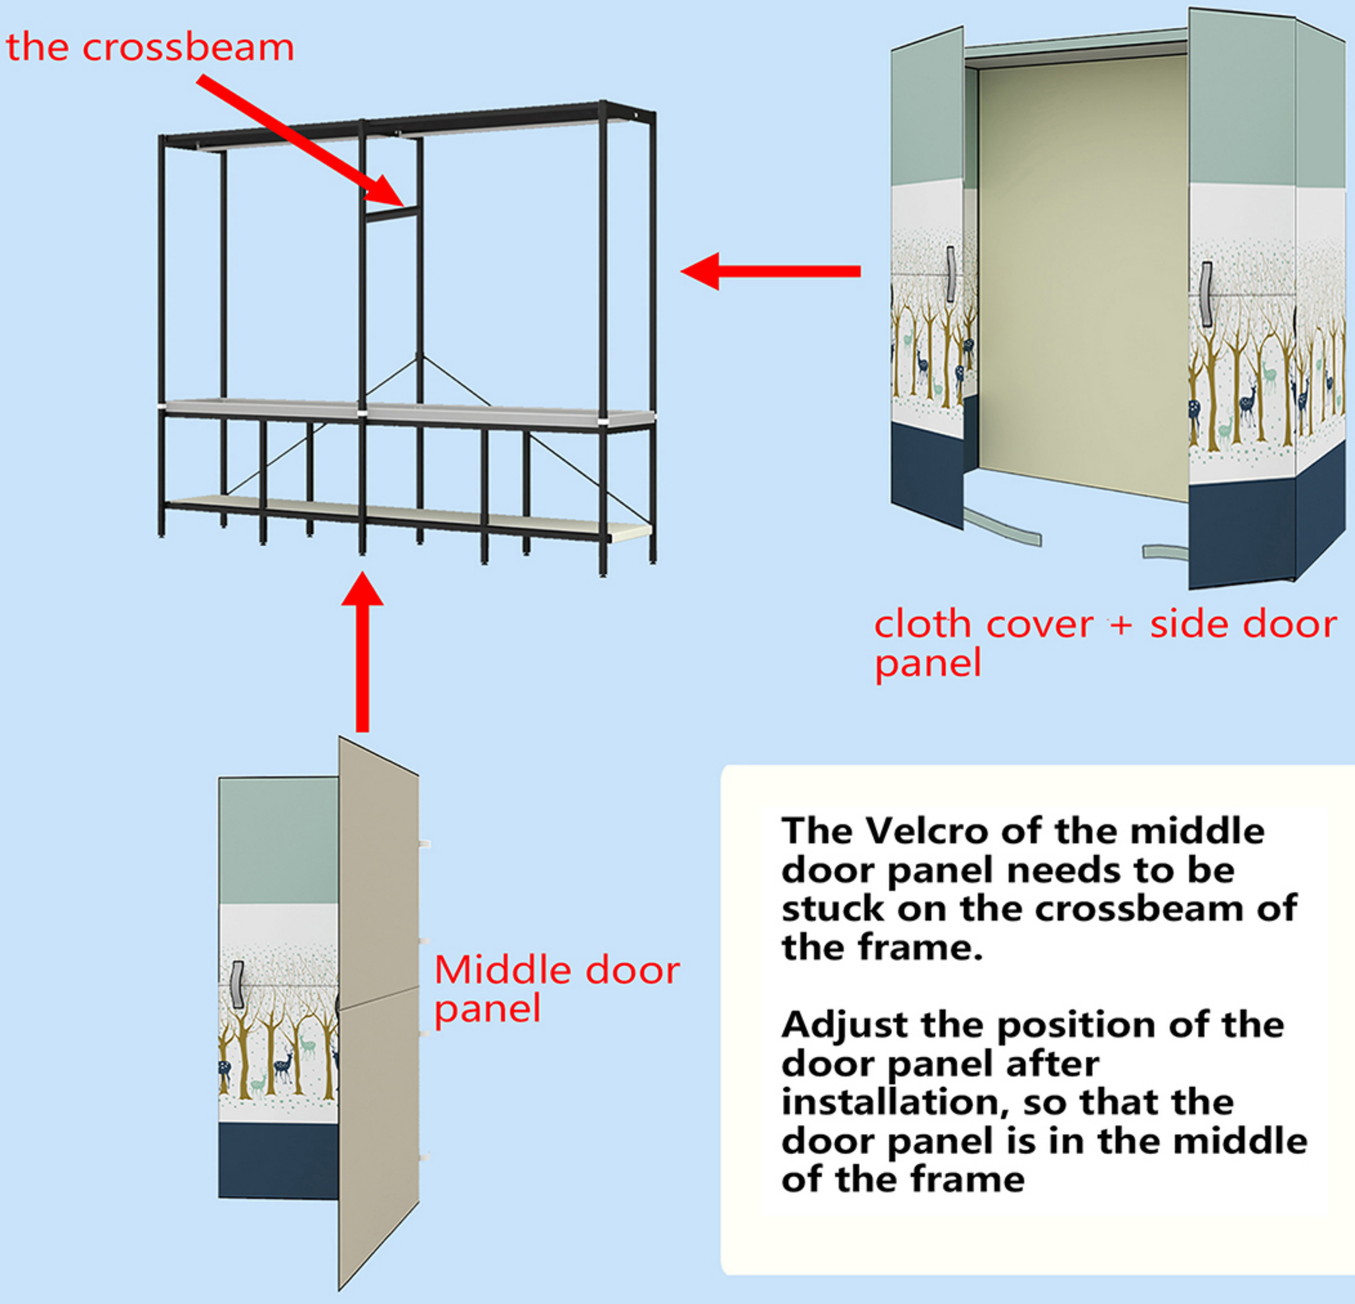

4. Install the partition cloth and cloth cover on the clothes rack and put the fabric cover on the frame, and zip it up.

KT Board Installation Method

Put the cloth cover + side door panel on the frame, and then install the middle door panel. As shown in the figure below:

The Velcro of the middle door panel needs to be stuck on the crossbeam of the frame.

Adjust the position of the door panel after installation, so that the door panel is in the middle of the frame

Please note:

1.Install the frame first, then tighten all the screws.

2.Please ensure enough installationspace. If the indoor ceiling height isinsufficient, the clothes rack canbe installed upside down.
